ON-Q\* Pain Relief System is widely used in procedures such as:

- Continuous femoral nerve block
- Continuous interscalene block
- Continuous popliteal nerve block
- Continuous infraclavicular nerve block
- Continuous TAP block
- Continuous paravertebral block

ON-Q\* Pain Relief System results include:\*

- Better pain scores
- Better patient satisfaction
- Reduction in length of stay
- Reduction in narcotic use
- Faster return to normal body function

There are inherent risks in all medical devices. Please refer to the product labeling for **Indications, Cautions, Warnings** and **Contraindications**. Failure to follow the product labeling could directly impact patient safety. Physician is responsible for prescribing and administering medications per instructions provided by the drug manufacturer. Refer to [www.myON-Q.com](http://www.myON-Q.com) for product safety Technical Bulletins.
